

Institutional access available  
**March 2018**

Wiley Digital Archives is a continuous program of new products, or collections, that are comprised of unique and rare historical primary sources, digitized from leading societies, libraries, and archives around the world. Through this program, these previously untapped original research materials are made institutionally accessible in ways that tie directly to research capabilities and outcomes and further educational goals.

## What can Wiley Digital Archives offer to your institution?

- Offers a **richer, holistic scholarly record**, enabling researchers and students to gain a closer understanding, or even reinterpretation, of published journal articles or scientific conclusions
- **Provides access to primary source materials** that may be otherwise difficult to incorporate into day-to-day, campus-based research
- **Adds historical context** to various subjects that contain primary research and data which may have shaped the evolution of the sciences, across a range of disciplines
- Brings a **wealth of material into view** for faculty, researchers, and students alike, altering the competitive research landscape, and reshaping the nature of education in these fields.

## Range of research collateral formats that are included, but not limited to:

- Manuscripts
- Maps
- Administrative Records
- Periodicals
- Data
- Monographs
- Fieldwork
- Correspondence
- Photographs
- Illustrations
- Proceedings
- Personal Papers
- Reports
- Grey Literature
- Ephemera
- Books
- Blueprints
- Newspapers

## Collection spans from 1817-2009

Approximately 200,000 images spread across 41 collections

### New York Academy of Sciences,

originally founded as the Lyceum of Natural History in the City of New Yorks mission is to drive innovative solutions to society's challenges by advancing scientific research, education and policy. At 200 years old, it is among the oldest scientific organizations in the United States, and while it has become not only an enduring cultural institution in New York, but also one of the most significant organization in the global scientific community.

- Natural Sciences
- Botany
- Climate Science
- Chemistry
- Civil/Human Rights
- Ecology
- Environmental Studies
- Forestry
- Geosciences
- Natural History
- North American Studies
- Education in the Sciences
- Caribbean Studies
- Medical Research
- And more

Royal Anthropological Institute

## Collection spans from 1839-1967

Approximately 1,000,000 images

### The Royal Anthropological Institute of Great Britain and Ireland (RAI)

is the world's longest-established scholarly association dedicated to the furtherance of anthropology in its broadest and most inclusive sense.

- Anthropology
- Colonial History
- Cultural Studies
- Photography
- Religion
- Art
- Dance
- Area Studies
- Archaeology
- Ethnic Studies
- Geography
- Gender Studies
- And more

## To enable researchers to find the information they need, the Wiley Digital Archives platform can:

- **Intuitive interface** – no need for an extensive user guide
- **Full-text searchability** for printed documents
- Collections are **browseable** at archive, collection, box, and folder levels, maintaining the original structure of the archive and keeping some of the serendipity in archives research
- Headers, names, places, dates, and core metadata for handwritten documents are **keyed in by-hand**
- **Exportable datasets** — charts, tables, statistics, even from handwritten fieldwork notes can be exported to .CSV/Excel formats with one simple click for ease of use and interpolation with other datasets
- **Visualized search results**
- **Enhanced metadata**
- Downloadable **Optical Character Recognition (OCR)** text
- Term frequency, chronology, and **analysis tools**
- Content is **available as data** for textual analysis, data mining, and other types of computational or algorithmic analysis
- **Geo-tagged historical maps**, allowing researchers to search or visually browseable by region and country, regardless of language or chronology
